FTF CHECKLIST

Shop Name:

HOSE REELS

- Can each reel be pulled out smoothly and locked and then retracted properly
- Are there any leaks anywhere on the reel
- Is there a ball stop
- Is the hose worn, torn, or bubbled
- Does the shop need another reel for a new product or to better cover the shop

Notes & Parts Needed:

CONTROL HANDLES

- Are any control handles leaking, check the swivel, meter face, and non-drip tip
- Are there any missing or broken pieces
- Does the swivel work at the inlet of the meter
- Does the meter work; if mechanical, are the face and dial OK,
- Does the meter work; if digital, is the display bright—is the battery indicator light on
- Does the shop need any new meters

Notes & Parts Needed:

PUMPS

- Does every pump have a regulator
- Is there an airline filter; either at every pump or on main airline feeding the pumps
- Are there any leaks
- Are the hoses (both air & fluid) worn, torn, or bubbled
- Is the shop satisfied with the pumps flow rate and pressure
- Does the shop need any new pumps

Notes & Parts Needed:

USED FLUID

- Does the shop have enough drains; check both used oil and used anti-freeze
- Is there a safe clean method to empty the drain into the storage tank
- Does the storage tank have a high level alarm and does it work

Notes & Parts Needed:
