

## MODEL 912

Wall Mount Kit for PM2 and PM4 pumps.

Includes powder coated steel bung type wall bracket and suction hose assembly.

Zinc plated steel suction tube is 45" long and equipped with a foot valve and a bung adapter. Stand off adapter can be removed to access 3/4" NPTF threads to extend the length for taller tanks.

Spring reinforced flex hose is 8' long and the unit comes with 3/4" and 1" adapters to mate with the suction inlet of any ratio PM2 or PM4 pump.
